Innovation Marketplace

Are you applying science and technology to tackle global development challenges? USAID's Higher Education Solutions Network (HESN) is searching for **young innovators who have created novel technologies, approaches, or research projects** to participate in an innovation competition at TechCon 2016 on November 10-12 at MIT. Apply now to showcase your work, make connections, and learn critical professional development skills. Participants will have a chance to **win financial and mentorship support** for their project.
